Organically Grown Wines Featured

This small, family-owned ranch is located on the western Rutherford Benchland of California's Napa Valley, where they grow organically certified Zinfandel, Cabernet, Petite Syrah and Petit Verdot grapes, olives, Meyer lemons and exotic pomegranate cultivars. Our single-vineyard wines include Tres Sabores estate Zinfandel, Cabernet Sauvignon and Sauvignon Blanc from the Farina Vineyard of Sonoma Mountain.

Tres Sabores means "Three Flavors" in Spanish, and in each of their wines, you'll find three equally savory, yet distinct tastes: the Terroir, or flavor embodied by the unique location of our ranch; the Vine, or distinct character of the grape variety; and the Artisan, or winemaker's personal contribution of style and intuition. When appropriately balanced, these flavors result in wines with intense, yet delicate aromas and a structure that supports both long-term aging and immediate enjoyment.
